⚙️ Your Infrastructure

Number of Virtual Machines

100

Total VMs across all hosts

Number of Physical Hosts

5

CPU Cores per Host

64

Total physical cores per server (e.g., 2x 32-core = 64)

CPU Sockets per Host

2 Sockets

VMware Licensing

VMware Edition

vSphere Enterprise Plus (\$383/core)

Per-core subscription pricing (Broadcom 2024+)

Include vSAN (\$210/core/yr)

Include NSX (\$262/core/yr)

Include vCenter (\$8,975 + \$2,250/yr SnS)

KVM Options

Linux Distribution

Rocky Linux / AlmaLinux (\$0/host) 

☐ Ceph Storage (free, included in OS)

Migration

Migration Engineer Hourly Rate (\$)

75

Hours per VM to Migrate

1

With h2kvmctl automation: ~0.5-1 hr/VM including testing

Team Training Budget (\$)

10000

Projection Period

Years
