

Partner & MSP Program

Build a VMware Migration Practice with hyper2kvm

Help your clients escape VMware licensing costs. Deliver migration services using open source tooling. Keep 100% of the service revenue — no software license to share.

Open Source Platform | 100% Service Revenue | No License Split

The Opportunity

Every VMware customer is a potential migration client. That's 300,000+ organizations worldwide.

Why Partners Win with hyper2kvm

No License Cost to Pass Through

hyper2kvm is Apache 2.0. You don't buy licenses to resell. Your entire engagement fee is margin. Compare: other tools cost \$3K-50K that eats into your quote.

Tooling Moat

Clients can't easily DIY a 10-cloud migration with offline guest fixes, Windows driver injection, and KubeVirt deployment. Your expertise + hyper2kvm = defensible value.

Recurring Revenue

Migration is phase 1. Ongoing KVM/K8s management, optimization, and training create long-term managed service contracts.

Market Timing

Broadcom forcing VMware renewals now. Clients need answers in weeks, not months. First movers capture the best accounts.

Engagement Model

Three service tiers for different client sizes.

Tier 1: Migration Assessment — \$5,000-15,000

- Connect to vCenter, inventory all VMs (read-only)
- Classify VMs by complexity (simple/medium/complex)
- Deliver migration plan with timeline and savings projection
- POC: migrate 3-5 test VMs to demonstrate capability
- **Duration:** 1-2 weeks | **Margin:** 80-90%

Tier 2: Managed Migration — \$25,000-150,000

- Full migration execution: VMware to KVM or KubeVirt
- Batch automation with hyper2kvm YAML configs
- Windows + Linux guest handling (VirtIO, fstab, initramfs)
- Boot verification on every VM
- Knowledge transfer + runbook delivery
- **Duration:** 4-16 weeks | **Margin:** 60-75%

Tier 3: Managed KVM/K8s Service — \$5,000-20,000/month

- Ongoing management of KVM/KubeVirt infrastructure
- Monitoring, patching, backup, disaster recovery
- Capacity planning and optimization
- Incident response and troubleshooting
- **Duration:** 12-36 month contracts | **Margin:** 50-65%

Revenue Projections

Per-client revenue model for your migration practice.

Client Size	VMs	Assessment	Migration	Managed (yr 1)	Total Year 1
Small business	25	\$5,000	\$25,000	\$60,000	\$90,000
Mid-market	100	\$10,000	\$75,000	\$120,000	\$205,000
Enterprise	500	\$15,000	\$150,000	\$240,000	\$405,000

Practice Growth Model

Year	Clients	Assessment Rev	Migration Rev	Managed Rev	Total Revenue
Year 1	5	\$50,000	\$200,000	\$300,000	\$550,000
Year 2	12	\$120,000	\$500,000	\$900,000	\$1,520,000
Year 3	20	\$200,000	\$800,000	\$1,800,000	\$2,800,000

Getting Started

Launch your VMware migration practice in 2 weeks.

Week 1: Train

Your team runs the POC guide on a test environment. 2-3 engineers, 2 days. Cover: local conversion, vSphere integration, KubeVirt deploy.

Week 2: First Client

Run a free assessment for your best VMware account. Deliver savings report. Close assessment + migration engagement.

Month 2+: Scale

Build YAML templates per client type. Standardize runbooks. Hire/train additional engineers. Grow pipeline.

What We Provide (Free)

Technical Resources

- Full hyper2kvm + hypersdk platform
- Documentation and API reference
- POC guide and test scripts
- YAML config templates
- Community support (GitHub)

Sales Resources

- 9 client-ready presentation PDFs
- ROI calculator worksheet
- Competitive analysis deck
- Case study templates
- Executive summary (2-page)

Build Your Migration Practice

Open source means zero software cost. Your expertise is the product. Start with one client, grow to twenty.
